

TEN BEST PRACTICE POINTS

The Gorliz Tourist Information Office is managed compliant with the principles on which the environmental awareness criteria are based.

Hence, these **Ten Best Practice Points** have been established in order to raise awareness among all stakeholders (staff, managers, visitors, partners and suppliers) concerning the importance of the environment, as well as fostering procedures among visitors to help them make the minimum impact possible on the environment and advising them on how to take care of it:

- ☐ Use natural resources, such as water and energy, in moderation.
- ☐ Report any anomaly involving excess energy consumption in our surrounding area.
- ☐ Choose environment-friendly suppliers and services.
- ☐ Preferably use public transport. At Gorliz Tourist Information Office we can inform you about the metro and train links we have available.
- ☐ Minimise waste management.
- ☐ Dispose of your waste in a clean and responsible way.
- ☐ When you visit natural spaces, try to leave no trace behind you that you were there.
- ☐ Help us to conserve our natural environment, our wild plant and animal life and our habitat.
- ☐ Make sure you comply with any applicable laws and regulations.
- ☐ Enjoy the rich local gastronomy and craftwork.
- ☐ Buy products and souvenirs that are an expression of our local culture.
